1. This drawings filed September 17, 2001 November 20, 2001 have been accepted and approved by the examiner.

2. The oath or declaration is defective. A new oath or declaration in compliance with 37 C.F.R. §1.67(a) identifying this application by application number and filing date is required. See MPEP §§602.01 and 602.02.

The oath or declaration is defective because:

the copy of the declaration filed is missing dates, citizenship, country, etc.

It is apparent the pertinent information was there, however, only partial information now appears. For example, the first inventor's date appears as 7/11, the year is missing. It is believed the declaration filed was not properly aligned when copied.

3. The following is a quotation of the second paragraph of 35 U.S.C. §112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

4. Claims 3 and 6 are rejected under 35 U.S.C. §112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claims 3 and 6, line 3, the phrase, "said composite controllers", lacks proper antecedent basis.

5. The following is a quotation of the appropriate paragraphs of 35 U.S.C. §102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

6. Claims 1-6 are rejected under 35 U.S.C. §102(b) as being clearly anticipated by Aldred et al. (5,649,105).

7. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
